

Recipe Development 101

100% accurate, style-preserving transformation because of a tech leap in code representation

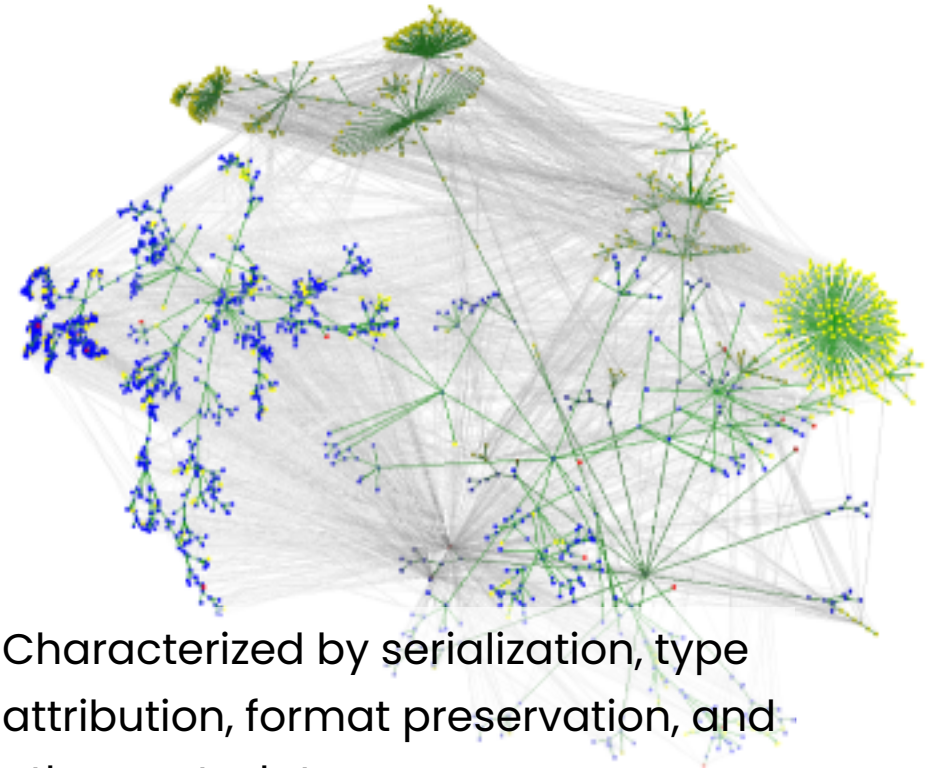

Text-based search

```
void m() {  
    if(c > 2) {  
        x = c;  
    }  
    while(c < 10) {  
        x += p();  
        c++;  
    }  
}
```

Abstract Syntax Tree (AST)

Lossless Semantic Tree (LST)

Characterized by serialization, type attribution, format preservation, and other metadata
